

From the Depths

Verse 1

“Use me, Lord” are such easy words to say
When life is good and blessings flow my way
But when You call me to proclaim
In my deepest, darkest pain
I know my strength alone won't get me through

Chorus

From the depths I cry to You
Show me, Lord, what you want me to do
Lift me up and help me stand
When I fall, take my hand
And carry me when I'm too weary to go on
Touch my heart and calm my fears
Let me know that You are near
Wrap your arms around me tight
It's gonna be alright

Verse 2

Let me kneel with You in the Garden
Help me pray the words that You prayed
If there is no other way
Help me not to be afraid
Not my will, Lord, but Your will be done
