

Run

Verse 1

You've got to be ready when it's time to start
Focus your mind, stretch your soul, train your heart
Listen to the wisdom of the ones who've gone before
As you take your place, set your pace,
Know what you're running for

Chorus

Run! Run with all your might
Out of darkness into light.
Run the race that's set before you
By God, who is always at your side
Running with you stride for stride
He will take you to the finish line
In His good time
So Run!

Verse 2

Keep your eyes steady, fix them on the goal
Just stay the course, you can't change what you can't control
Following the crowd will get you caught up in the pack
So hold your head high, pass them by, no reason to look back

Verse 3

Your race may seem easy or it may be hard
More hurdles to clear, hills to climb, the end seems so far
But faith in the Promise will put you on the vict'ry stand
Your crown's been won by God's own Son,
The race is in His hands
